

Web Hosting Sites advisory and Important Information

Please review the following important information about hosting sites

WordPress

[WordPress.org](#) - **VoiceZam's player will operate without restrictions on this platform.**

Often called **self-hosted WordPress**, is the free, open-source WordPress software that you can install on your own web host to create a website that's 100% your own.

[WordPress.com](#) – **Requires payment for their Business plan or higher.**

This is a for-profit, paid service that is powered by the WordPress.org software. It's simple to use, but you lose much of the flexibility of the self-hosted WordPress.

VoiceZam's player will not operate under their Personal or Premium billing plans.

More information on [WordPress.com billing plans](#).

WIX, GoDaddy, Google.Sites

VoiceZam's player and buttons operate perfectly on these platforms. However, custom designs, styling or layouts, may require professional web development services which are not cover under VoiceZam's player support policy.

Squarespace

VoiceZam's player will operate without restrictions on this platform.

PLEASE NOTE: Squarespace does allow use of code customizations such as CSS and JavaScript [in their business level plan or above](#).

This means that a business plan is require if you intend to use VoiceZam's Demo trigger buttons on a webpage.

VoiceZam's Player Support Policy

- *We ensure that your player will load and play properly on your platform.*
- *If you've completed the staging tutorial for your platform and find that your player does not appear or plays incorrectly, you may contact us via email at support@voicezam.com*
- *VoiceZam's player support does not extend to specific web platform issues, or matters related to design, layout, styling that require custom HTML and CSS programming. For additional support beyond basic staging, we encourage you to seek out a qualified web developer.*
